PAN LINERS

Cook-n-Liner™
HIGH TEMPERATURE PAN LINERS

Why scrub, when all you need to do is sanitize? Put your best dish forward and forget all the messy clean-up! Cook-n-Liner is a high-temperature disposable pan liner that can be used in microwaves, slow cookers, steamers, conventional and convection ovens. Liners can also be boiled and frozen.

Cook-n-Liner's specially formulated material allows less heat to escape, locking in moisture and preventing food from scorching, baking and burning onto pan surfaces. No more food to scrape or pans to soak! Simply use a convenient Cook-n-Liner and clean up is a breeze.

The contour fit of the Cook-n-Liner eliminates snagging and pulling while serving, reducing waste and saving time. Cook-n-Liners can be used to transport foods to satellite facilities.

An amazing time saver…

- Save time and money
- Eliminate soaking and scrubbing
- Retains moisture and flavor
- Quicker pan turn around
- Heats to +400°F (+204°C)
- Freezes to -100°F (-73°C)
