

What's new?

The newest innovation from

JobSelect® Comfort™ Nitrile Gloves
with ThinSense™ technology

ThinSense™ technology, the newest innovation from FoodHandler®, creates a lighter, thinner nitrile that is actually **twice as strong** as standard nitrile – but with softness and pliability comparable to latex.

New JobSelect® **Comfort™ Nitrile** disposable gloves leverage this breakthrough technology to deliver form-fitting comfort, excellent dexterity and the durability to keep hands safe and protected.

Advantage Pack
Reduces waste by 40%

The 4/250 pack size requires less storage space than the current 10/100 configuration.

Combined with the lightweight nature of Comfort Nitrile, Advantage Pack also reduces quantities of packaging materials and solid waste, helping your organization achieve its sustainability goals.

- 64% less corrugate
- 59% smaller case cube
- 40% less solid waste overall
