

Fusion Steele® Stock Print

Unique brushed metal design, all surrounding Fusion's insulating ThermoThin™ core. ThermoThin provides superior insulation, keeping beverages hotter longer while remaining comfortable to the touch. Fusion Steele® is available in five sizes with each ounce capacity clearly printed on the cup, making it easy to distinguish between drink sizes. And, four of the five cup sizes accept a single lid size, reducing the need for added inventory.

Item #	Size	Case Pack	Suggested Lid
