

Food Rotation Products

Permanent Labels: Strong adhesive. Perfect for disposable surfaces such as plastic wrap or tin foil. Works in temps range: -65°F - 160°F with a minimum application temp of 25°F.

Dissolvable labels: Dissolve completely in water. These biodegradable labels ensure you'll never scrape crusty tape or food rotation labels off washed containers again. Works in temps range: -40°F - 176°F with a minimum application temp of 21°F when adhered above condensation line.

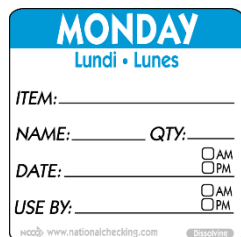

Removable Labels: Semi-gloss finish and mild removable adhesive. These popular labels remove completely from containers before washing without leaving any residue. Works in temps range: -40°F - 160°F with a minimum application temp of 10°F.

Rinse-Away Labels: Rinse-Away Labels: Rinse Away labels break down on contact with water, so they scrub off easily. Works in temp range: -40F – 176F with a minimum application temp of 21F when adhered above condensation line.
